

AFTER 60 YOU CAN LIVE ALL ALONE IN YOUR BUNGALOW OR JUST MOVE INTO THE NEST.

Why live all alone... why not live at a place that's full of life. A place that is safe... entertaining, enjoyable... and good company... Presenting The Nest, a senior citizens' residential project from Aakriti... that's elder friendly in everything - design, infrastructure, planning and amenities... there are theme lounges on every floor... the units are cosy and warm... spacious, luxurious with anti skid tiles everywhere... even specially designed washrooms... that prevent injuries and falls... Indoor games for leisure... But there's more... Guest house, Security system, Emergency alert system, Fire detection and fighting system, Standby ambulance, Rooms for Massage, Therapy, Recreation, Meditation, Library etc. as well as a Physiotherapy unit, Pharmacy & OPD, Two Elevators including stretcher elevator... But what you'll love here is the company, cheer and life... call it the next innings... the new enjoyable phase of life... The Nest awaits you... come over... it would be great fun.
